iCAM Entry Application

Iris ID (Formerly LG Iris) has been the leader in iris recognition technology since 1997. Iris ID IrisAccess®, now in its fifth generation, are the world's leading deployed iris recognition platform. Iris ID's biometric solutions enable the hygienic non-contact and highly accurate identification by the iris of the eye, deliver security, convenience, privacy and productivity to millions around the world. The IrisAccess® platform identifies more people in more places than all other iris recognitions products combined.

Use it with eyeglasses or contact lenses'. iCAM can even be mounted behind glass or in a NEMA 4 enclosure for vandal resistance and harsh wash-down environments.

Easily add Iris Recognition to your Access Control or Time & Attendance system

- Enrollment on any connected device
- On device **iIdentity** – Duplicate User screening function
- Management of iCAM 7101 model

iCAM Entry is a software application that enables easy addition of Iris Recognition to any Wiegand based Physical Access Control System (PACS) or Time & Attendance solutions.

Single door operation with iCAM alone also possible by the enabling the On Device Enrollment feature which is password protected.

Technical Specifications

Enrollment

iCAM Entry ensures both simplicity and high performance. Encrypted iris templates are stored in the device with or without user biographic information. iCAM Entry simplifies the installation and operation of the iris recognition. On device or PC managed enrollment

- The system is compatible with standard IT equipment, card readers and door controllers.
- Advanced enrollment tools and processes
- Devices can transfer data to other access control and Time and Attendance systems
- Built in Screen Prompting for time and attendance (such as Job Codes)

Device Management

iCAM Entry provides a simple intuitive GUI for enrollment and Data distribution to other iCAM 7101 devices.

With iCAM Entry all iCAM's simply appear as a conventional card reader to virtually any wiegand based access control and Time and Attendance systems. See www.irisid.com for more details.

- Connects with all iCAM 7101 devices
